

PEDESTRIAN REFUGES, GUIDE & FLEXIBLE POSTS & CONVEX MIRRORS

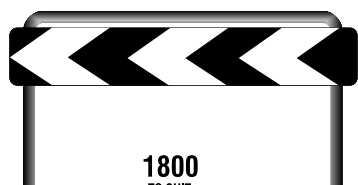

EYE SPY®

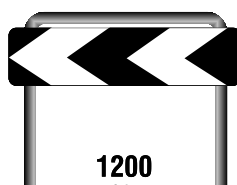

Pedestrian refuges have become a vital component of local area road furniture in areas of heavy pedestrian traffic. They clearly delineate the area where pedestrians can dwell whilst crossing busy roads. This provides the pedestrian with some protection and a feeling of safety and the motorist with a clear awareness of where the pedestrians are.

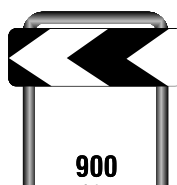

EYE SPY SIGNS P/L manufactures 3 standard sizes of pedestrian refuge.

1800
TO SUIT
HAZARD BOARD D4-1-3
1800 x 300

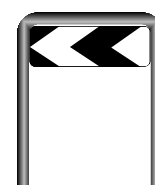

1200
TO SUIT
HAZARD BOARD D4-1-3(special)
1200 x 300

900
TO SUIT
HAZARD BOARD D4-1-3(special)
900 x 300

Alternative arrangement
where the hazard board
is made to fit within the
confines of the rail.....

TO SUIT
HAZARD BOARD D4-1-3(special)

We also manufacture specialised sizes for customers who may wish to fit a new, non-standard rail to existing holes.

The rails are manufactured from MG 50 mm nominal bore galvanised tube. They are available separately, or complete with the hazard board and clips. The hazard boards are manufactured to DIER Specification R63 - Signs.

GUIDE POSTS & FLEXIBLE POSTS
